Comments :

Putri is a friendly member of the class. However, she still needs a lot of supervision in finishing her tasks. She also needs to manage her time better so she can finish her work on time. Putri needs more time to understand new concepts, she is able to master them over time through continuous practices and exercises. For the better result in the future, she needs to ask everything that seems unclear for her better understanding especially Mathematics and Grammar. You can do it, Putri!
